Subject: S mp e terms

Lets try this.. Simple terms.. please input.. for pain, tie up, attitude, inflammation, etc.. I know you gave description but I need a one word blip to catch their attention... w/o me suggesting or telling them .. that way they will question , then ask you or me about it..

Equi-Mass: PG-2 : Muscle growth factor. Natural anabolic

GNRH: Factrel, Androgenic hormone

ITTP PLUS: Increased Oxygen release in blood.

TB-7: Accelerated tissue repair especially lung tissue

Oxygenator Increased Oxygen release in blood

HEPTAMAMO- B12 Mild blood builder

EGH Increases Testosterone

Homeogesic: Natural analgesic (Pain killer)

PSDS: Natural analgesic (Pain killer)

BB3 Long acting blood builder (Would only let trusted clients have this)

BPR BLUE Strong pain killer and sedative

Equitosan Anti-Inflammatory for joints

ACTH In small doses will act as natural anti-inflammatory, Larger doses (2cc or more) sedation.

LC200 Blood Buffer

SERENITY Sedation
